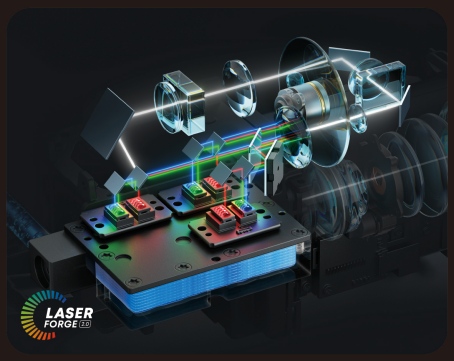
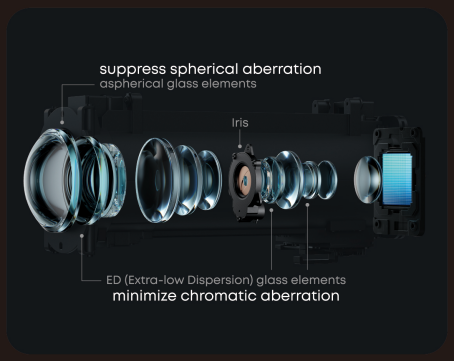
Cinema-Grade 4K Smart Projector with Top-Tier Clarity



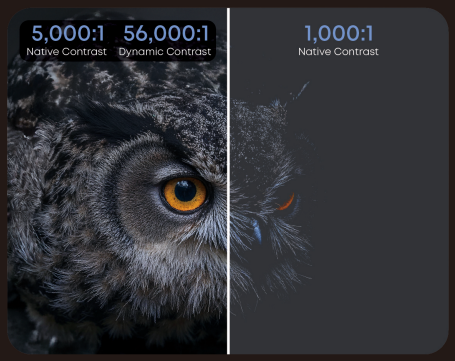
4K Triple Laser Engine for Peak Brightness and Clarity

Our patented triple laser engine features an industry-first U-shaped laser optical path for brighter, sharper visuals while reducing volume by 50%.



Cinema-Grade All-Glass Lens for Clarity That Lasts

The first smart projector to feature a 14-element all-glass lens, delivering superior clarity, thermal stability, and long-lasting focus.

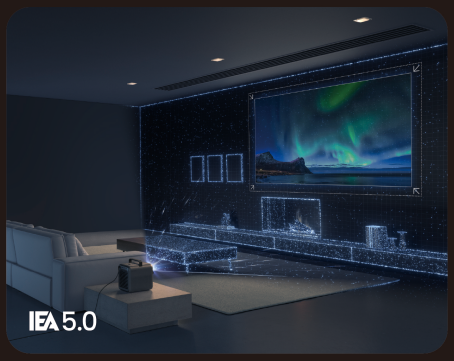


See Every Shade of Darkness with Ultra-High Contrast

A 6-blade dynamic iris and NEBULA's dynamic contrast algorithm deliver a 5,000:1 native contrast and a 56,000:1 dynamic contrast, revealing fine details even in the dark.

Big-Screen Visuals, Lossless Flexibility

Enjoy big-screen viewing without limits in any room, thanks to 0.9:1 - 1.5:1 short to long throw ratio.



One-Click Adaptation, Even in the Tightest Spaces

No fussy setup—it intelligently scans your projection surface and perfectly adjusts the image to the best position, size, and clarity in just one click.

Industry-First Liquid Cooling System for Smart Projectors

The liquid cooling system improves heat dissipation by 15%, reduces size by 30%, and lowers noise to 26 dB.
