Timecode

ClearVoice™  
by Saramonic

130 dB SPL

Anti-Distortion

Auto Gain Control

32-bit Float

Onboard REC

Waterproof  
Transmitter

300 m

External Antenna

Control with  
Taps and Turns

# Highlights

- Built-in **timecode** for precise audio-video sync
- Handles up to **130 dB SPL** with anti-distortion protection
- Detachable **external antenna** for stable transmission up to 300 meters
- **ClearVoice™** by Saramonic with intelligent noise cancellation, Vocal Boost / Low-Cut modes, and automatic gain control
- **32-bit float onboard recording** with 8 GB storage
- **IPX5 waterproof transmitter**
- **1.1" HD AMOLED touchscreen** and **scroll knob** for intuitive interaction
- Wide frequency range (**20 Hz - 20 kHz**) and **90 dB** signal-to-noise ratio
- Pebble grain and rugged durability design
- 3.5 mm TRS jack, USB-C and Lightning adapters with rotary buckle

# LEARN MORE

# Timecode

With built-in **timecode**, syncing audio and video across multiple cameras takes just seconds. Each clip's timing is frame-accurate, streamlining post-production alignment and editing. Pro, made simple.

\* Timecode is a media synchronization system designed to perfectly align your audio and video recordings. It saves editing time, especially with multiple cameras and audio recorders. It works by tagging each clip with its precise start time, down to the frame, ensuring clips align perfectly even if devices start or stop recording at different times.

Never-Seen-Before

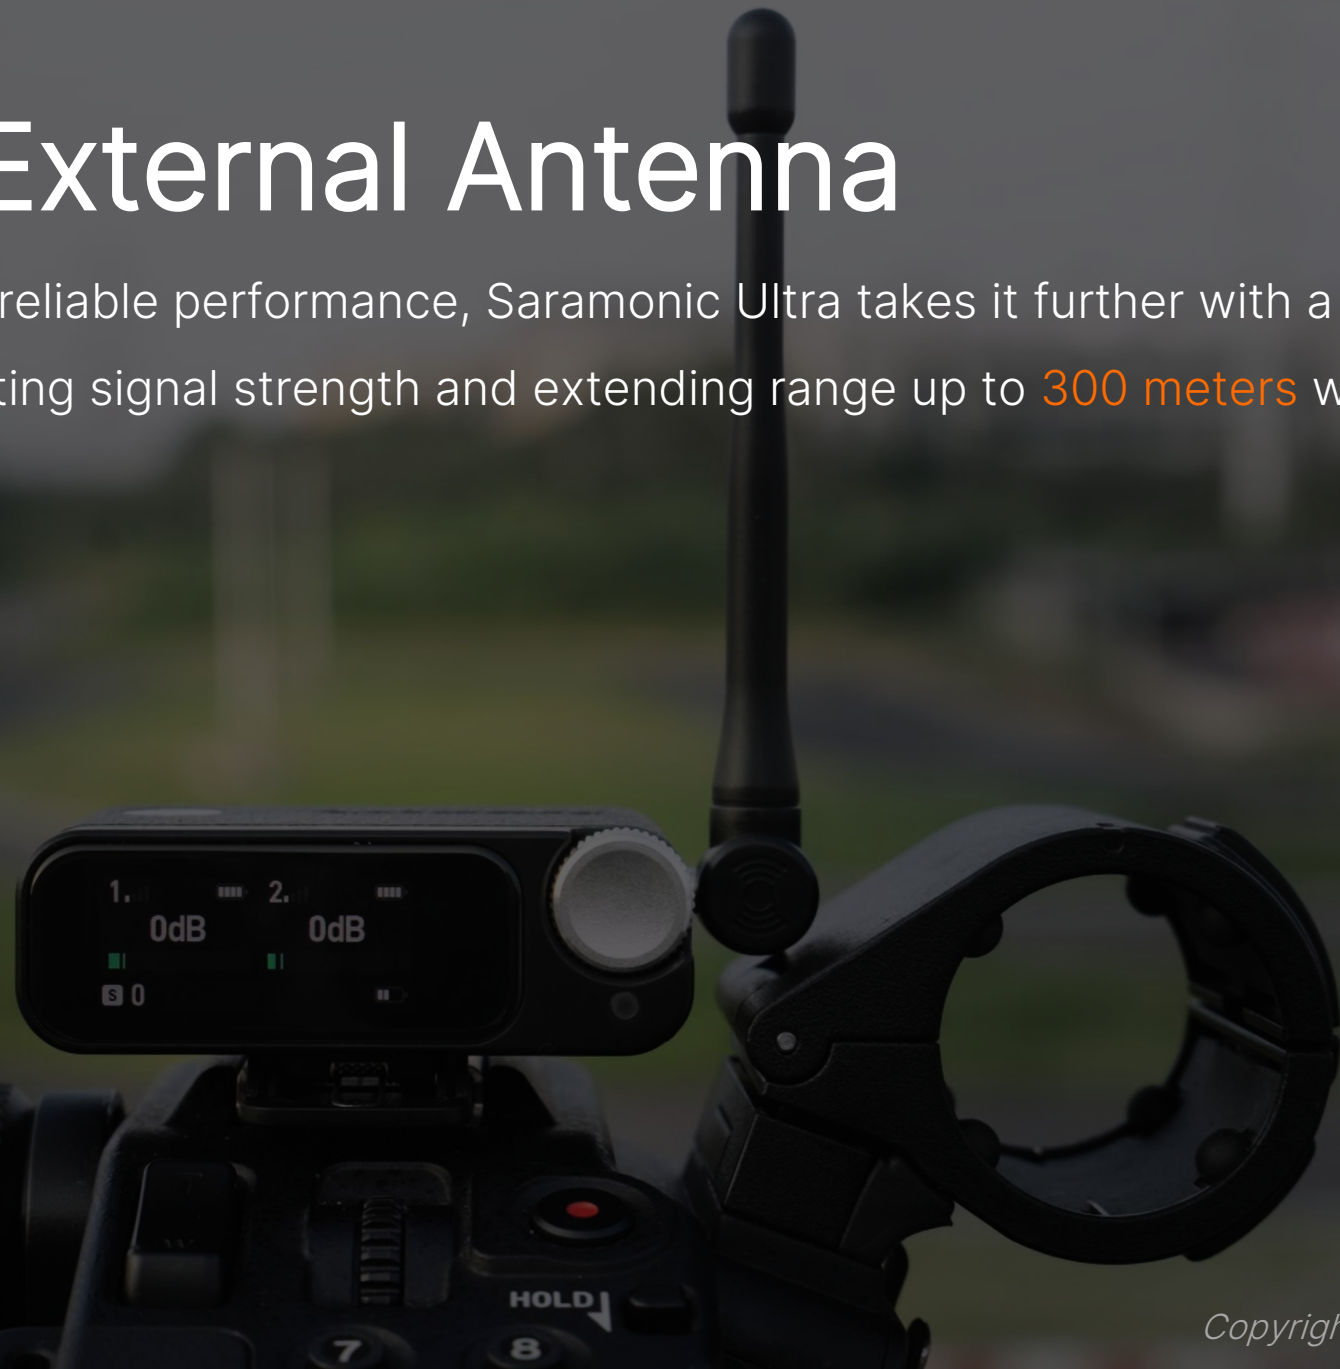

**130 dB SPL**

Handles audio source even at **130 dB SPL** — near a jet engine, at rock gigs, or motor races —  
Saramonic Ultra captures true audio without clipping.

# Detachable External Antenna

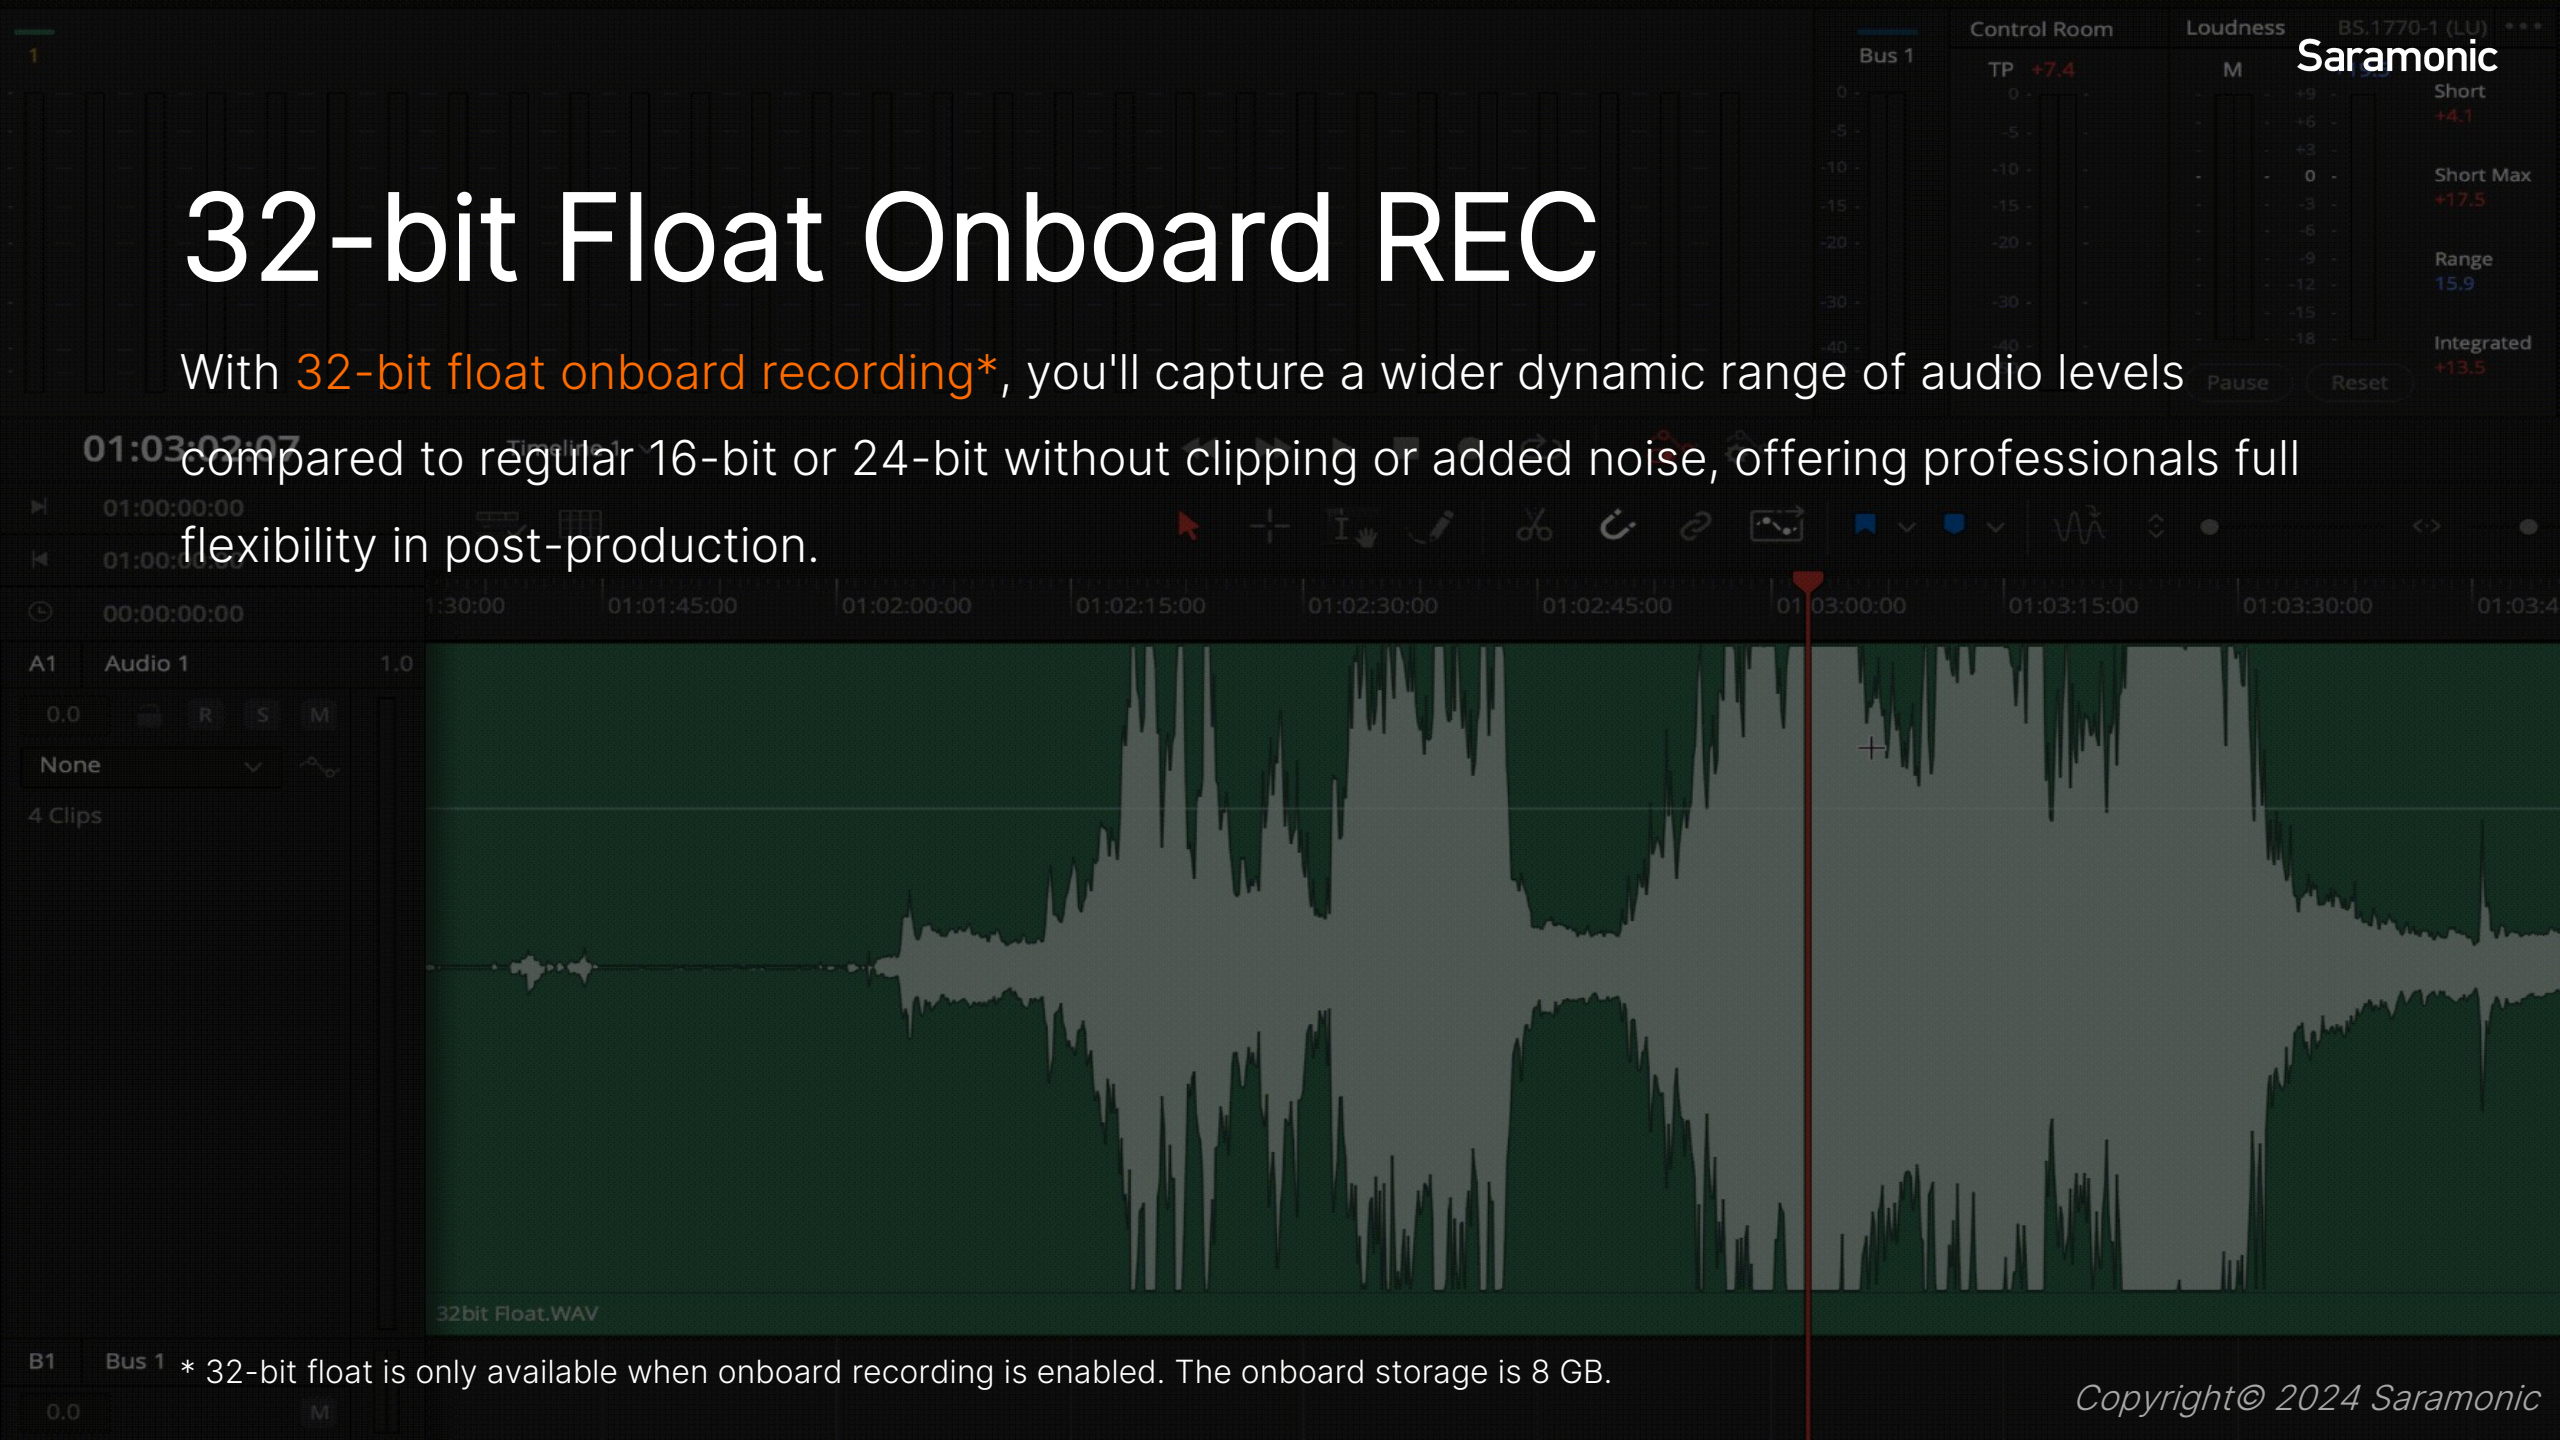

With built-in dual antennas for reliable performance, Saramonic Ultra takes it further with a state-of-the-art **external antenna**, boosting signal strength and extending range up to **300 meters** with ease.

# 32-bit Float Onboard REC

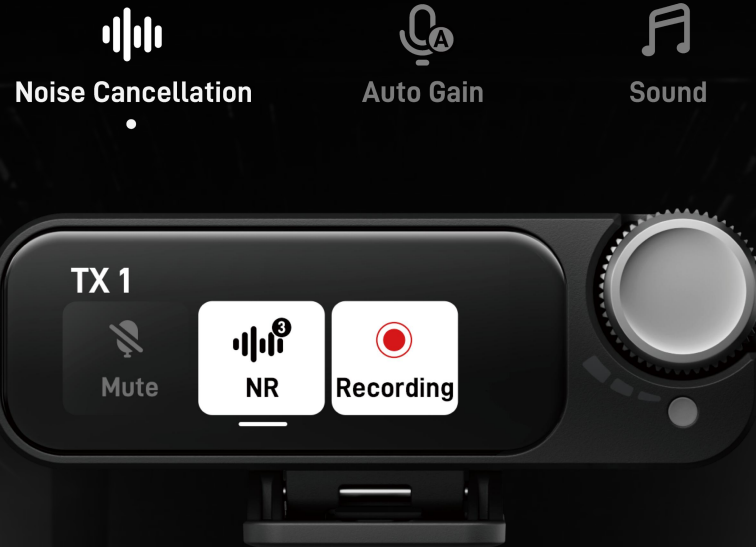

With 32-bit float onboard recording\*, you'll capture a wider dynamic range of audio levels compared to regular 16-bit or 24-bit without clipping or added noise, offering professionals full flexibility in post-production.

\* 32-bit float is only available when onboard recording is enabled. The onboard storage is 8 GB.

# ClearVoice™ by Saramonic

ClearVoice™ by Saramonic filters out background noise with **intelligent noise cancellation**, while **Vocal Boost and Low-Cut** modes help tailor your sound for any setting. **Automatic Gain Control** (AGC) adapts your audio levels on the fly, ensuring voice stays clear and balanced without manual adjustments.

# IPX5 Waterproof

The transmitters come with **IPX5-rated water resistance**, so rain won't slow you down, and with 6 hours of battery life on both the transmitters and receiver, you can focus on your work without interruption. Always ready for the road.

# Take A Closer Look

# Quick Specs

Sample Rate / Bit Depth	48 kHz / 24-bit 48 kHz / 32-bit Float (with onboard recording on)
Signal-to-noise Ratio	90 dB
SPL	130 dB
Output Mode	Mono / Stereo / Safety Track / Headset / Headphone
One-Click Noise Cancellation	Yes
Frequency Response	20 Hz - 20 kHz
Latency	25 ms
Low Cut	150 Hz
Transmission Range	300 m (with External Antenna) 250 m (without External Antenna)
Onboard Recording	8 GB
Built-in Mic	Premium MEMS Mic
Battery Life	Transmitter / Receiver: 6 hours
Power Supply	Built-in Lithium-ion Battery
Charging while Recording	Yes
Clip	Metal / Non-removable / Non-rotatable
Supports Mic in	Yes
Water Resistance	IPX5 (Transmitter)
Display	AMOLED (Receiver)
Real-time Monitoring	Yes
Supports Dual Device Output	Yes
Adapter Design	Replaceable / Plug and Play
3.5 mm Port	Female Connector
USB-C Adapter	Yes
Lightning Adapter	Yes
Charging Case Operating Time for TX and RX	24 hours
Charging Case Battery Capacity	2900 mAh

## Media Coverage

"Saramonic has packed a lot of performance into a very affordable two-mic wireless system. There are options to maximize its performance."

Mark J. Pescatore, Content Director of Systems Contractor News

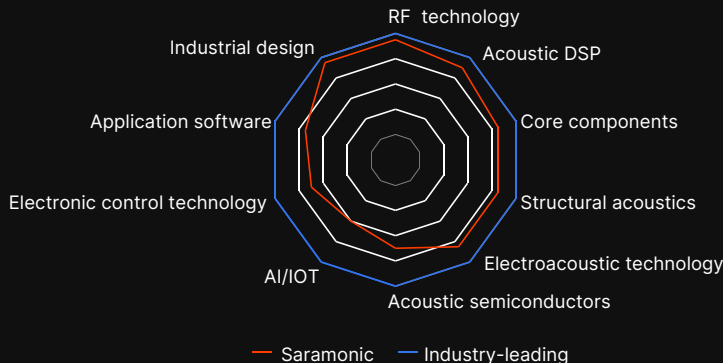

"The combination of features of the Blink 500 B2+ makes it a versatile option specifically for content creators who are starting out."

Nicco Valenzuela, reviewer at fstoppers

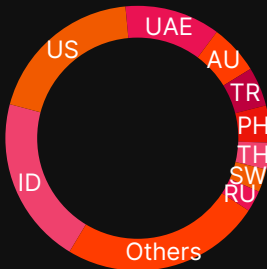

"...the ability to turn these recording devices (BlinkMe B2) into advertisements is definitely a great help for creators and studios."

JC Torres, content contributor at Yanko Design
