Sleep A20  
Bluetooth Sleep Earbuds

1. 100% is based on findings from the soundcore laboratory.  
2. Battery playtime is tested in the soundcore laboratory with continuous audio playback at 50% volume. The actual playtime may vary by volume, audio source, environmental interference, usage, etc. The calculation of the total hours of deep sleep over a period of 10 nights assumes an uninterrupted sleep duration of 8 hours per night, resulting in a cumulative total of 80 hours of sleep.  
Please note that Sleep A20 earbuds do not feature ANC or a microphone.
