EFFORTLESS CONTROL FOR ANY SCENE

Future Vision Of CINEPEER

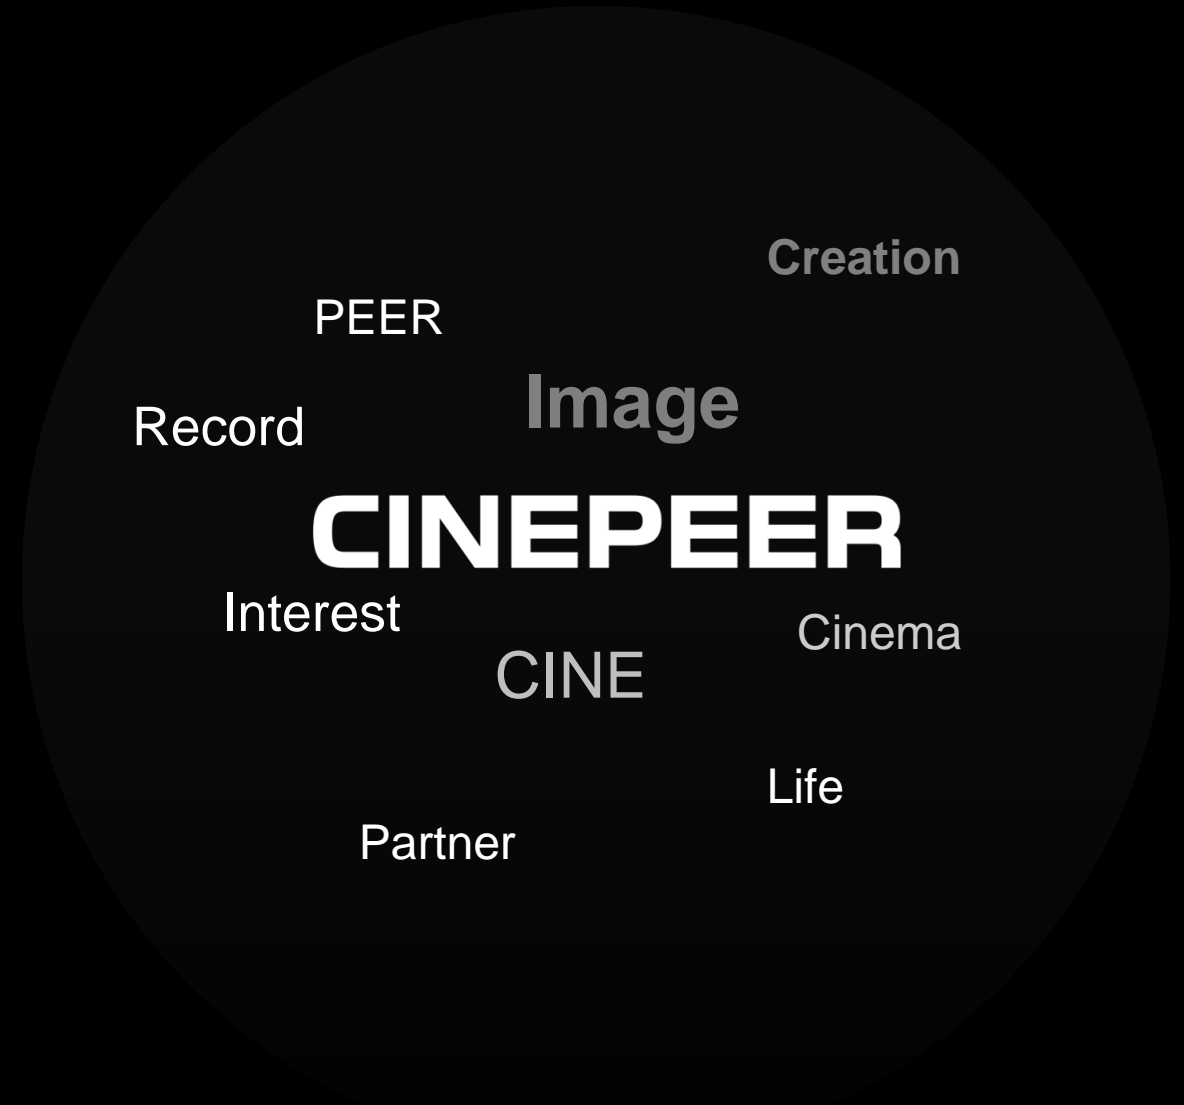

We aim for every creator to create effortlessly, transforming technology from a barrier into a bridge for creativity. Our goal is for users to find joy and satisfaction in the creative process. By maintaining high-quality standards, we strive to meet the growing demands for creative production, ensuring that every captured moment is engaging and fun.

What is CINEPEER?

ZHIYUN follows the principle of "simple names for better products." The affordable CINEPEER series is named with meaningful implications. "CINE" stands for "cinema" and "PEER" means "partner," highlighting its role as your companion in video creation.

ZHIYUN's products emphasize branding and innovation, leading to advanced designs and excellent craftsmanship, but their prices are relatively high. The CINEPEER series, however, maintains ZHIYUN's core performance with excellent quality and exceptional affordability. It meets the needs of more users, allowing more enthusiasts to experience the joy of easy creation.

Professional Full-Color, Even Light Distribution

With high-power RGB film-grade light mixing technology, the CX50RGB delivers vibrant colors with the brightness of a key light, providing concentrated beams and even light distribution.

Vibrant Colors, Perfect Atmosphere

The rich full-color output meets the color rendering needs of various scenes, supporting car photography, theater ambiance, and creative portrait lighting, creating stunning and dynamic visuals at any moment.

50W Full Power, Double the Brightness

The CX50 achieves 26,400 Lux of professional studio-level fill light with a custom high-reflection mini standard reflector, featuring a refined light angle based on optical principles. This represents a 40%+ increase in brightness compared to other lights with the same power, delivering true 50W full power.

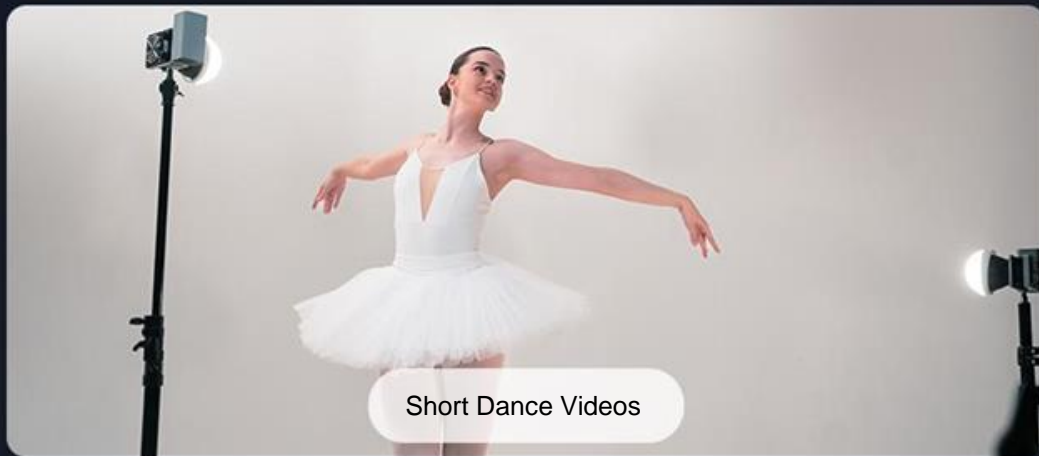

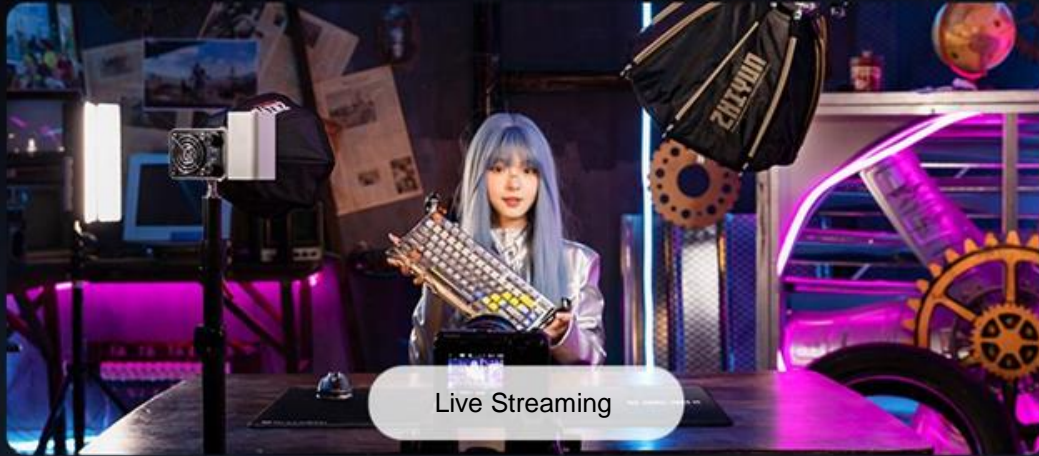

26400 Lux

*Tested with ZHIYUN Mini Standard Reflector at 0.5m, 4300K CCT, 100% brightness.

Versatile Assistant, Fill Light Anywhere

The ultra-compact light offers a new fill lighting experience for portrait, live streaming, social media videos, and still life lighting. It's versatile enough to handle scenes of all sizes.

Built-in High-Capacity Battery, PD Power Supply Support

The CX50 series features a 4500mAh battery, offering 32% more capacity than other lights of the same power. It provides up to 60 minutes of runtime at 100% brightness. The light supports PD fast charging, allowing you to use it while charging with PD chargers or power banks. With a DC adapter, the light ensures all-day operation, even for fixed indoor setups.

Professional, Portable Video Light Ecosystem
