WiTalk9 SE series

2.4 GHz 5-person Full-duplex Wireless Intercom System

Idea for weddings, short video filming, talk shows, commercial filming, medium and outdoor team-building, small conferences, small-scale aerial photography, mobile broadcasting, and hotel services, etc.

WiTalk9 SE Series

2.4 GHz Full-duplex Wireless Intercom System

Redesigned for small to medium-sized teamwork in environments with minimal interference. Incorporating ClearTalk™, Saramonic proprietary three-mic array ENC algorithm, along with dual antennas, the system ensures clear communication within a range of 350 meters.

Featuring master-free and decentralized grouping, the system offers enhanced flexibility for team collaboration and an optimized value for money.

WiTalk9 SE Series Highlights

- 5-person full-duplex System: 2.4 GHz, hub-free and ready to use. Supports up to 9 users with 2 sets via wired cascading.
- Remote Intercom: Enables cross-city/region communication with software such as Zoom, Teams, etc. Master can connect to phone or computer, wired or wireless, for remote communication.
- Master-Free: Every headset can be a Master. A malfunctioning, broken, or lost Master will not affect the overall use.
- Dual-antenna Design: Up to 350 m stable team talks. Minimizes interference in areas with dense RF signals.
- ClearTalk™: Features a 360° noise-cancelling three-mic array and a proprietary noise cancellation algorithm(NCA), which reduces ambient noise and enhance voice pickup, ensuring clear team talk even in noisy environments.
- AGC algorithm and High Volume: Ensure clear intercom performance in noisy environments up to 120 dB SPL.
- Saramonic App: Includes essential functions in large icons for intuitive navigation. Adaptive Frequency Hopping (AFH) for seamless global use.
