

Manfrotto »XCHANGE

Unlock Your Full Creative Potential.

Introducing the new

XCHANGE

"XCHANGE" is a versatile accessory designed for professional photographers and videographers who need instant adaptability.

This system allows users to quickly swap heads, slider, and other accessories, enabling them to seamlessly transition between different types of equipment and creative tasks. This flexibility helps them to efficiently tackle various creative challenges, whether they're shifting from photography to video or using the tripod as a lighting stand. Ultimately, it unlocks their full creative potential by providing a versatile and efficient solution for their needs.

Target User & Applications

PRO Photographers

Seeking innovative experiences and high-quality features to enhance their creative ambitions.

PRO Hybrid Creators

Require versatile gear that allows seamless transitions between photo and video shooting, catering to both dynamic and expert photographers as well as videographers looking for sturdy and portable solution.

PRO Videographers

Focused on achieving the perfect final frame, leveraging the latest compact and lightweight mirrorless technology to push their creative boundaries.

Target Applications

Ideal for use with Manfrotto supports and compatible with all supports featuring a 3/8" male screw, emphasizing extreme versatility.

Super slim shape

This accessory is designed to be your ideal companion, providing all the support you need. Despite its sleek design, it's extremely robust, capable of holding up to 20 kg with ease. Plus, it offers the flexibility to create various shooting configurations, enhancing your creative possibilities.

Maximum Flexibility

This accessory offers full compatibility with all supports, tripods, heads, sliders, or whatever you need. All you require is a 3/8" screw where to mount Xchange base and 3/8 thread where to attach the plate, and you're good to go.

Lock in place effortlessly

With a simple drop-in motion and enjoy complete 360° freedom. When you're ready to switch, just twist and lift out—it's that easy!

Features

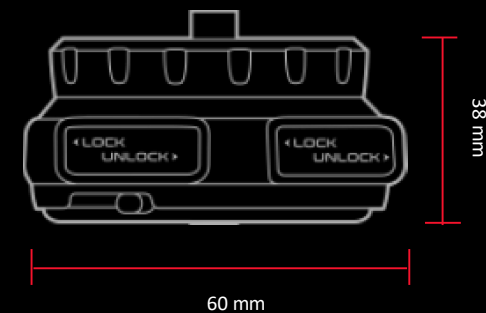

60 mm plate featuring a standard 3/8" screw

Safety first!
Here is a safety lock to ensure that the plate/Xchange ready head stays securely in place, preventing any unwanted release.

A flat base mount featuring a standard 3/8" thread, offering great versatility and compatibility with various support setups such as tripods, sliders, and monopods.
