CAMERA STRAPS - SLIDE

Black | Ash | Sage | Midnight | Coyote

A pro camera strap that’s everything other camera straps aren’t

FEATURES

- Ideal for the heaviest of pro camera/lens setups
- Wearable as sling, neck, or shoulder strap
- Instant attachment/detachment via Anchor Link connection system
- Each Anchor holds 200lbs (90kg) of force
- Anchors have 2-layer anti-abrasion thermoplastic cords which indicate if they’ve sustained damage and need replacement
- Aluminum quick-adjusters let you change strap length with 1 finger while strap is on your body
- Internally-padded webbing gives all-day comfort with no added bulk
- Strap has smooth and grippy sides—flip to switch between them
- Highly stable camera carry via 2 configurable points of connection
- Webbing glides over clothing for quick camera access
- Connects to strap loops or bottom of camera body via Anchor Mount hardware
- Works with Peak Design tripod plates and many 3rd party plates & L-brackets
- Also works with binoculars, rangefinders
- 100% carbon neutral
- Webbing is solution dyed, saving water and energy
- Guaranteed for life
