

CAMERA STRAPS - CUFF ROPE

- Black
- Ocean
- Kelp

Cuff Rope is a low-profile camera wrist cord that offers peace of mind for gear minimalists seeking comfort, utility, and style in the simplest form.

FEATURES

- Glass-reinforced nylon slip-adjuster quickly cinches down in the event of an accidental drop
- Anodized aluminum stopper lets you adjust loop size. Low-profile, comfortable drop protection for any size camera
- No visible seams or stitching for a sleek, integrated aesthetic

MATERIALS

- Rope: Nylon & polyester rope with custom-developed basket weave sheathing
- Hardware: Glass-reinforced nylon Anchor housing & slip-adjuster. CNC-machined anodized aluminum stopper.
- Anchors: Glass-reinforced nylon with multi-layer thermoplastic cord

DIMENSIONS

- Min Length (slip-adjuster pushed up to Anchor housing):
- 22cm (8.7")
- Cinched Length (length from wrist to end of strap when cinched on wrist):
- 28cm (11")
 - (varies by +/- 5cm depending on wrist size)
- Rope Diameter:
- 8mm (0.31")

COMPATIBILITY

Attaches to any camera with 1 or more strap loops/eyelets.

WEIGHT

- Weight (without Anchors):
- 21.3g (0.75oz)

CAPACITY

- Weight Capacity (all sizes):
- Each Anchor can withstand over 90kg (200lbs) of force
 - Overall strap rated at 82kg (180lbs) of force
