Intelligent Tracking

1.8" Color
Touchscreen

Built-In Handgrip
Design

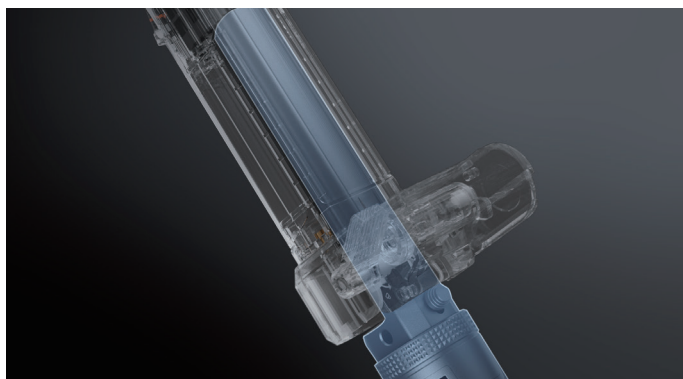

3 kg High
Payload Capacity

All-New AI Tracking Module

Instantly lock onto people, pets, vehicles, or buildings — just draw a box around any subject.

Built-In Handgrip Design

The world's first all-in-one built-in handgrip design — no extra accessories needed.

Built-In Professional Fill Light

ZHIYUN's core lamp bead-lens technology delivers a compact form with high brightness.

3 kg High Payload Capacity

Effortlessly supports mainstream full-frame cameras with standard lens setups.

1.8" Color Touchscreen

Large touchscreen for intuitive parameter adjustment, tracking box selection, and mode switching.

Native Portrait/Landscape Quick Switch

Third-generation native portrait/landscape switching — no additional accessories required.
