Fastpack IV One-pager

INTRODUCTION

READY WHEN YOU ARE

Built for travel creators who move fast, Fastpack IV delivers the right balance of camera carry and daily essentials. It holds a full-frame mirrorless camera with multiple lenses, with quick side access so your next shot is always within reach—just unzip and shoot.

A smart dual-compartment design with full back-panel opening keeps gear organized and protected, whether navigating airports, city streets or weekend adventures. Cabin-size compliant for frequent flyers, it features a collapsible divider that separates camera gear from personal items and instantly converts to full-capacity daypack mode.

Rugged recycled ripstop nylon with carbonate coating improves weather resistance and durability, while stretch side pocket fits water bottle or compact tripod. A laptop and passport sleeve, hideaway waist belt (BP250/450), locking zips, and included AW Cover complete a travel-ready, fast-access solution for creators on the move.

FEATURES & BENEFITS

- **Quick side camera access** enables fast shooting or lens changes without putting the bag down.
- **Full back opening** improves organization and security for efficient packing on the move.
- **Collapsible divider** converts the backpack from dual compartment camera carry to full-capacity daypack mode.
- **Laptop and passport sleeves** accessible with one zipper to streamline airport security experience.
- **Zip-puller locking strap** adds extra security during travel.
- **Rugged coated materials** on front and bottom protect against rain, dirt, elements.
- **Dual side stretch pockets** carry a water bottle and tripod, or two bottles for long days (BP250/450)
- **Separate compartments and front pocket** keep personal items accessible and camera gear protected.
- **Hide-away waist belt** stabilizes heavier loads and tucks away when not needed. (BP250/450)
- **Included rain cover** protects bag and gear in extreme weather conditions.
- **Dual grab handles** improve control when lifting or loading into overhead bins. (BP250/450)
- **Self-standing** structure stays upright for ideal access when the bag is set down

USPs

Instant Access: Quick side access lets you grab your camera in seconds, while a dual-compartment layout keeps camera gear and personal items balanced and organized.

Rugged Urban Fabric: Durable, modern coated fabric withstands daily travel and outdoor use while delivering a sleek look made with a high percentage of recycled materials.

Travel-Smart Design: A carry-on-friendly camera daypack that looks great anywhere, designed for smooth travel and security screenings, with securable zippers and a dedicated CradleFit laptop pocket.
