Target group

For quality seeking customers who quickly need to correct small mistakes the Kores liquid correction line is just what they are looking for. With the improved high quality formula all products comply with the new CLP (classification, labeling and packaging) regulation and therefore inform the consumer sufficiently about personal and environmental safety. The regulation will be mandatory starting June 2015.

Channel

The products are available in various packagings such as blister and display boxes, which are ideal for B2B, Retail as well as Chains.

Product characteristics

- Fast drying
- Easy overwriting
- Highly pigmented

Logistical Information

For logistical data please see the Kores Price List 2015

Usage recommendation

- Apply liquid to area, which needs to be corrected.
- If needed add a second layer.
- Wait until corrected area is dry to overwrite.
