

Move Quick Release

Move your camera seamlessly making changing setup effortless and quick.

360°QR

Simply drop-in (and nothing else) to lock the system and enjoy 360°freedom. To release, just twist and lift out.

X LOCK

Thanks to its engineering, an extra twist-lock is available, to make the system even more stable.

ERGONOMIC DESIGN

Precisely engineered technologies mean a lighter ergonomic design, suitable for all the configurations (head, sliders, tripods, stabilizers..).

53mm
1,37in

UNIQUE, FULL COMPATIBILITY

Designed and manufactured to work with the entire ecosystem. And thanks to its capability and universal attachments, all other systems too.

Full Agility

Gimboom

MVGBF-CF

The Manfrotto Gimboom allows you to get more versatile and flexible use from your Gimbal, raising your production values to the next level.

Modular Gimbal 300XM

MVG300XM
