

Photo Tripod Small – NGPT001

Keep all your shots steady with the ultra lightweight and portable National Geographic Photo Tripod, Small.

Thanks to its 3-way head, quick release plate and spirit level, you can position your camera wherever you like to get the perfect shot. Or if smartphone photography is more your style, attach via the included smartphone clamp. You can also rotate the head 90 degrees with a simple adjustment for portrait orientation.

Thanks to the 4 section legs, flip leg locks and mid-level stabilisation you can extend the tripod up to 1.37m without compromising on stability.

Great for DSLR, mirrorless, or bridge camera setups up to 2.5kg, and smartphones up to 8.4 cm (3.2") wide. The Tripod, Small only weighs 596g.

**Carry case &
smartphone
clamp included**

**Sustainable
