

# JOBY® Wavo™ Boom Arm

Microphone Arm with desk clamp, cup & headphone holder  
JB01803-BWW

JOBY®  
Sell Sheet

The Wavo Boom Arm is a strong and silent solution for streamers and content creator that need a microphone close to their face to optimize audio quality

The rated payload of up to 1kg ensures compatibility with all type of microphones and thanks to the ¼" ball head allows easy camera mounting for a convenient top down/tech review setup

The Wavo Boom Arm features a high-quality matt plastic shell that streamlines the look of the arm while protecting the user from accidental pinches from the internal mechanism.

The cable is hidden securely under the integrated management slots that can be customized with the included red or black covers keeping the overall arm tidy up.

The Arm is clamped to the desk surface with rubber protections both on the top and the bottom of the table to avoid any intents or marks

The clamp also offers the unique cup and headphones holder combo, a killer feature to keep the desk clean and organized
