- Professional 3-Axis Stabilizer -

CRANE-M2 S

Stay Handy. Get Ready

CRANE-M2 S is compatible with multiple devices.

Besides compact cameras and mirrorless cameras, CRANE-M2 S is also compatible with smartphones and action cameras with an accessory mount. For more details, please check the compatibility list on ZHIYUN-TECH.COM or contact ZHIYUN customer service.

Stay Handy. Get Ready

CRANE-M2 S helps you explore more possibilities in filming with its brand new compact design, enhanced compatibility, and the newly-added fill light. Take it and embark on your next journey of creation.

FEATURES

Portable Yet Powerful

CRANE-M2 S is compact as always and easy to carry with a super light body that weighs only 549g.

An Upgraded Gimbal for All

Combined with stronger motors and extended axes, the gimbal is compatible with various cameras, like your phones, actioncams, and mirrorless cameras.

Extra Bright in A Tiny Light

The fill light adopts Lumen Amplifier technology to offer 1000 lumens of brightness. The adjustable 5-level light and color filters give you unlimited possibilities in creation.

Feels Just Right In Your Hands

Handy and intuitive, the ergonomic product design guarantees a comfortable user experience for controlling and shooting.

Install & Detach in a Flash

Quick Release 4.0 and dual safety locks ensure utmost safety and efficiency. A quicker transition between installing and detaching can better suit the run-and-gun scenarios.

- Various Shooting Modes
- Fast Charging
- Trendy Bag for Gear
