

# Wavo™ Lav PRO

Big Sound, small footprint. High quality lavalier wearable mic  
JB01718-BWW

**JOBY®**  
Sell Sheet

As professional sound recordists always say, the best sound is close to the source.

Wavo Lav PRO expands the lineup of JOBY microphones introducing a high-quality lavalier (lapel) microphone with minimized capsule dimensions and PRO-grade built-in capsule.

The reduced dimensions are key for easy concealment while maintaining close positioning to the mouth allowing the capsule to deliver broadcast quality sound for demanding creators.

The omnidirectional patterns, typical for lavs, allows sound capture regardless of the direction of the head.

The intentionally long black cable is made to work in harmony with Wavo PRO for the best interview setup.

**Color**  
Black

**Materials**  
Aluminium, rubber

## PRO-grade capsule

- Broadcast sound for crisp, warm and natural voice
- Included foam windscreen to remove vocal plosives or soft wind

## Long and soft cabling for interview

- Long high-quality cable ensure connection with Wavo PRO for the best interview setup
- The cable softness is key to accommodate clothing movements or equipment shapes without transferring vibrations

## Small Footprint

- Professional ultra-small dimension for easy mic placement and concealment
- Combined with durable aluminum mounting clip to keep Wavo Lav PRO locked in place

## 3.5mm TRS connector

- Pairs perfectly with Wavo PRO
- Works with camera attachments
