

ZHIYUN

-Professional 3-Axis Stabilizer-

CRANE 4

Beyond Boundaries

The image shows two Zhiyun Crane 4 gimbals mounted on a black equipment rack. Each gimbal is holding a camera. The camera on the right is a Canon DSLR with a large lens. The background is dark with several out-of-focus, warm-toned circular lights. The text is centered over the gimbals.

Committed to providing creators with professional and reliable productivity tools,
ZHIYUN introduces CRANE 4 with an unprecedented lightweight experience,
exceptional stability, and powerful payload capacity,
pioneering the cutting edge to break creative boundaries.

CRANE 4

LESS BURDENED. FEELS RIGHT.

Crafted with ergonomic precision,
the lightweight design delivers superb handling.
Professionalism no longer has to name after the cumbersome.

CRANE 4

CALLS ACCEPTED. COMES BACK STRONGER.

Thanks to its longer arm length,
stronger motors and extended quick release plate,
CRANE 4 effortlessly and securely accommodates full-frame DSLR
and compact cinema cameras.
Unleash full power without sacrificing portability.

*For detailed camera compatibility, please refer to the compatibility list.

CRANE 4

BALANCE ONCE, AND FOR ALL.

Balance indicator lights added to each motor provide a timely reminder for precise balance calibration.

Balanced

Unbalanced

Intelligent balance indicator

CRANE 4

LANDSCAPE & PORTRAIT, AS YOU WISH.

Boasts an innovative quick-release module that integrates horizontal and vertical lock structure, enabling effortless switching between native landscape and portrait shooting modes.

*Please check the compatibility list for details.

CRANE 4

REVOLUTIONARY SLING MODE. MORE PRECISE CONTROL.

The adjustable sling grip,
combined with the wrist rest that
supports fine-tuning angle adjustment,
significantly reduces shooting fatigue while
giving you more precise movement control.

CRANE 4

VERSATILE SLING GRIP. TAILOR-MADE SOLUTIONS.

The extendable sling grip can be adjusted to the gimbal's central axis, allowing for easy switching between sling mode and two-handed modes. The 1/4" screw hole on the grip unlocks more combination possibilities of lights and accessories.

CRANE 4

UPGRADED WRIST REST

The flexible wrist rest structure features energy-saving adjustment and skin-friendly texture, making creation effortless and comfortable.

CRANE 4

BUILT-IN 10W FILL LIGHT

Max Illuminance: **3200 Lux**

CRI: **95+**

CCT: **2700K-5500K**

The built-in 10W fill light adds to the portability of quality shooting, bringing you a lightweight experience than ever with pro LED lighting.

*The max illuminance is collected at 5500K, 0.3m and with 100% brightness. The data is based on tests in the standard environment at the ZHIYUN lab.

CRANE 4

BLUETOOTH CONTROL. FASTER, MASTER.

CRANE 4 supports Bluetooth shutter control with mainstream cameras.

You can start/stop recording or trigger photo-taking functions via the recording button, experiencing a seamless shooting like never before.

*For the camera models and protocols compatible with the Bluetooth shutter control, please check the official compatibility list.

CRANE 4

COLOR SCREEN. BRILLIANCE WITHIN TOUCH.

The 1.22-inch color touchscreen supports multiple adjustments and includes built-in features such as motion timelapse, elevating your creativity at fingertips.

CRANE 4

ATTENTION TO DETAILS. BORN FOR PRO.

Equipped with a silicone protective sleeve, reducing wear and tear of axis arms while carrying the gimbal.

Comes with a magnetic tightening wrench to assist in every shooting session.

CRANE 4

Customization. Icing on the Cake.

Trigger Button

>>> Customize gimbal modes

Front Dial

>>> Customize functions

The trigger button and front dial support customizable parameter adjustment, such as ISO, shutter and aperture, as well as focus motor and gimbal mode control, making the creative process more intuitive and convenient.

*For the full compatibility of functions, please refer to the official compatibility list.

CRANE 4

CRAFTED FOR CINEMATIC SCENES

CRANE 4 can be paired with a rich selection of professional accessories, creating a comprehensive creative ecosystem that enables excellent remote monitoring and collaborative creation.

Along with follow-focus motors, you're empowered to break the limits of professional filmmaking.

*For detailed instructions on TransMount follow focus, please refer to the product manual or official dedicated page.

*TransMount Image Transmission accessories and follow focus motor need to be purchased separately.

CRANE 4

EXPLORE MORE WITH DUAL FOLLOW FOCUS

The built-in dual follow focus ports allow for a precise focusing experience through external dual servo focus controllers.

Together with TransMount Image Transmission system, you are able to focus and zoom while live monitoring the shots, getting the next-level footage with enhanced depth and dynamics.

*For compatibility details regarding follow focus operations, please refer to the compatibility list.

*Follow focus controllers and TransMount Image Transmission accessories need to be purchased separately.

CRANE 4

POWERFUL BACKUP. INSPIRATION NEVER STOPS.

Fully-charged
takes only:

1h50min

Runtime up to:

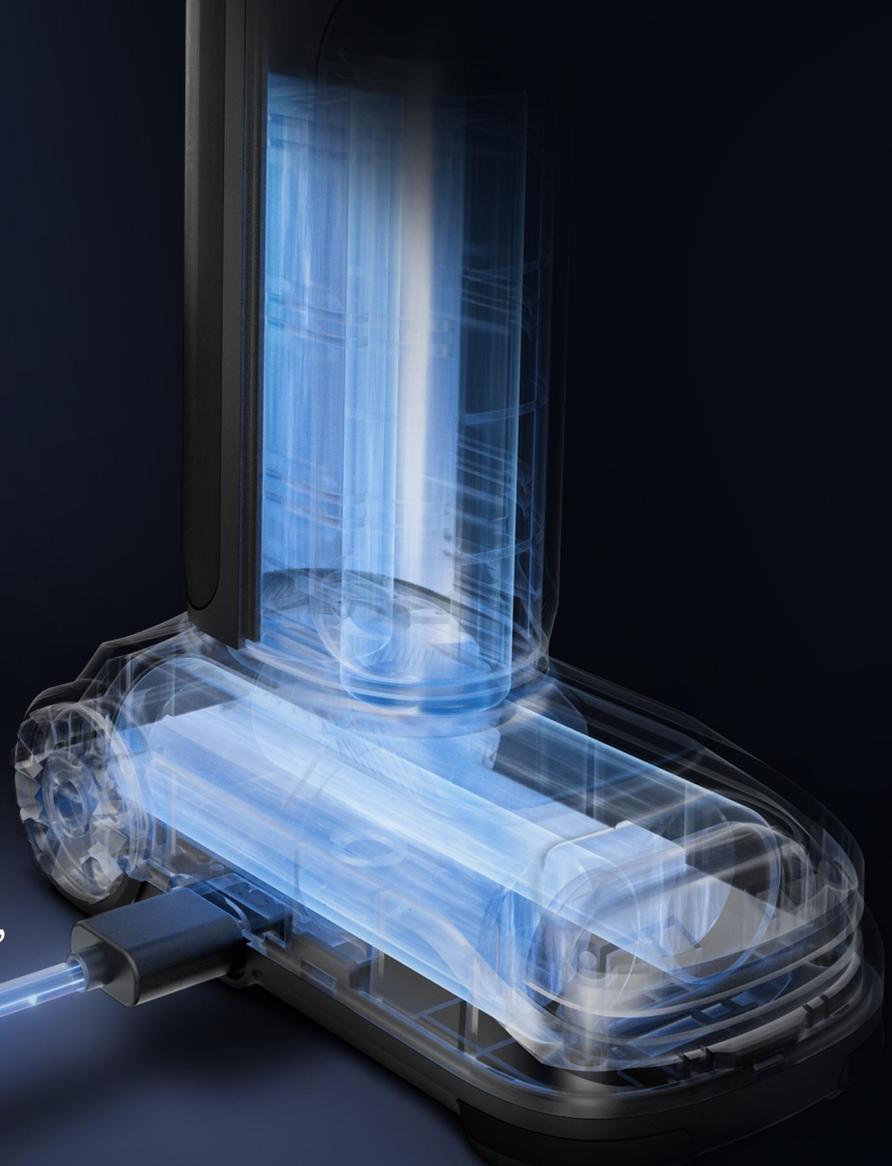

12h

The four 18650 batteries firmly back up your whole-day shooting.
The PD fast charging gets you fully charged in just 1 hour and 50 minutes.
Embrace uninterrupted inspiration as you charge and shoot simultaneously,
enjoying a seamless and stable creative journey.

*The data above are based on tests in the standard environment at the ZHIYUN lab.

The peak runtime of 12h is gathered with Canon 5DSR+EF 24-105mm 1:4L at the static status. The actual runtime and charging time may differ.

Q: What should I do if the product does not work properly?

A: Please contact ZHIYUN service center for assistance via Facebook Messaging or online customer service at info@zhiyun-tech.com. For more information, please visit <https://www.zhiyun-tech.com>

Q: How to get in touch with Zhiyun? Is there a service hotline?

A: Any queries, please call us at +86 400 900 6868. We also provide online services via email, Facebook, Twitter, Instagram, and YouTube. For more information, please visit: <https://www.zhiyun-tech.com>

Q: Does ZHIYUN have retail stores?

Please visit the official website of ZHIYUN (<http://www.zhiyun-tech.com>) for information of retail stores.

Q: What are your product warranty terms?

A: Customers are entitled to free repair service from Zhiyun within 12 months from the date of delivery (accessories and fittings excluded).

Please refer to our official website for detailed information on a specific model:

Refund and replacement policy: <https://www.zhiyun-tech.com/en/service/agreement/1>

Repair service: <https://www.zhiyun-tech.com/en/service/repair>

Q: What is the product repair process?

A: Customers need to send the product back to Zhiyun and then the customer service center will have the device inspected and tested.

If it's the material or workmanship that leads to product failure, Zhiyun will cover the cost of inspection, material, labor, and shipment.

If the product is proven to be damaged by artificial causes or beyond the warranty terms. Customers can choose to get the device repaired with payment or get the product back.

If the device does not work due to improper operation or other situations which do not apply to warranty terms, we will charge a certain amount of fee.

Zhiyun does not support IWS (International Warranty Service) due to product version differences. Warranty service is only provided in Zhiyun authorized service center.

For more information, please visit: <https://www.zhiyun-tech.com/en/service/repair>

Q: What is the positioning of CRANE 4?

CRANE 4 is designed for video studios, wedding photography, commercial advertising and other professional teams. It is a professional camera gimbal with integrated lightweight design that meets high-intensity loading and performance. For detailed functions, please consult official channels or customer service.

Q: How is the compatibility of CRANE 4?

CRANE 4 is compatible with mobile phones, action cameras, point-and-shoot cameras, mainstream mirrorless cameras (including full-frame cameras) and mainstream small cinema cameras. For more details, please refer to the camera compatibility list on the Zhiyun official website.

Q: Which brands of cameras does CRANE 4 support to control?

CRANE 4 uses wire control and Bluetooth protocol to control the camera, and can control Sony, Canon, Nikon, Fuji, Panasonic and other brands of cameras. For more details, please refer to the camera compatibility list on the Zhiyun official website.

Make It Real.
