Range

DynaVort
Cooling System™

**100W
MAX**

100W with
DC & PD

Intuitive
Adjustment Knobs

All Glow Up for Your Shots

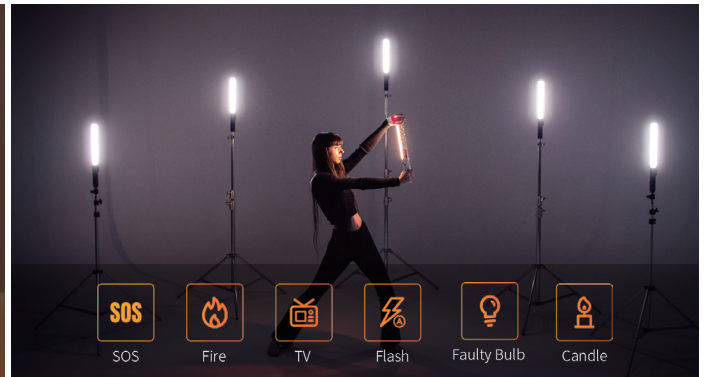

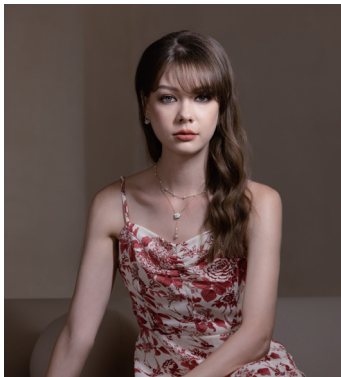

High illuminance for crisp and vibrant shots. Just one press to MAX for a power surge of up to 100W.

*To activate MAX mode, please power the light via DC power instead of built-in battery.

Stay Cool While Shining

The DynaVort Cooling System™ prevents overheating and maintains high efficiency with outstanding cooling performance.

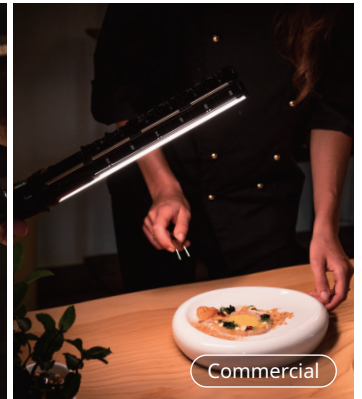

Bi-Color & Faithful Rendition

Color Temperature Range: **2700K-6500K**

Illuminance (no modifier): **1730Lux** (5500K/100% Brightness/1meter)

Artistry Elevated

Transform your shoots with unique and fun lighting and create an entirely new atmosphere for your audience.

For Diverse Scenarios

Achieve optimal results in a range of shooting scenarios, including live streaming, portraits, TVC, stills, etc.
