Bowens
Mount

One Press for the Extreme

A one-press MAX Extreme mode with a peak output of up to 300W.

*The duration of continuous use may depends on the temperature. Under long-term high-temperature conditions may trigger frequency reduction or high-temperature protection.

ZY Vega App for Remote Control

Supports Bluetooth Mesh networking, remote dimming and quick switching of presets.

Bi-Color & Faithful Rendition

Color Temperature Range: 2700K-6500K,

Illuminance (no modifier): **9460Lux** (6500K/100% Brightness/1meter)

Light with Controller

The innovative design separates the light body and the controller, making it simple and quick to achieve a wide range of functions.

Fits Various Settings

Compatible with modifiers with Bowens Mount for various kinds of settings like portrait, commercials, livestreaming, etc.
