Performance Tested

- ✓ Superelastic Material
- ✓ Aerospace Grade Titanium Alloy Material

**5,000**

Bends, Same Shape

Ergonomically designed with 0.7mm thick aerospace grade titanium wire

## Balanced and Clear Sound

Experience rich mids, crisp highs, and a well-balanced sound profile thanks to the drivers' composite diaphragms with titanium coated domes.

## Directional Acoustics

Uniquely designed, the nozzle optimizes acoustic reflections, allowing for precise re-direction of sound waves towards your ears, preventing sound leakage while enhancing bass quality.

## Listen Safe and Sound
