

NEBULA

# Apollo

Pocket Projector

A Touch of Boundless Entertainment

## Multiple Connections

Connect HDMI and USB devices to Apollo to project your media on the big screen—you can even watch wirelessly with Airplay, Miracast, or Bluetooth.

## All From the App

Control Apollo right from your phone with the "Nebula Connect" app. Download it now from Google Play and the App Store.

## Interactive Touch Panel

Control your entertainment with just a touch. Swipe your finger across the transparent touch panel for quick navigation, or enter mouse mode for pixel-precise control.

## All Day Playtime

Wake up and watch cartoons with the kids. Learn the recipe to grandma's favorite pie in the afternoon. Enjoy an evening's entertainment with the whole family.

## Lights. Camera. Action. Anywhere

Apollo casts off the constraints of wires so you can watch movies, shows, and more on the big-screen, wherever you go.

## Expand Your Sound

Capture not just the sights but the sounds of cinema as well. Pair Apollo with a Bluetooth speaker to unleash powerful, immersive audio.
