ZHIYUN MOLUS X100

100W Pocket COB Light

ZHIYUN

VINTAGE STYLE DESIGN

You've never seen a COB light like this:

A slim, vintage pocket light that strikes a perfect balance between fashion and utility.

ZHIYUN

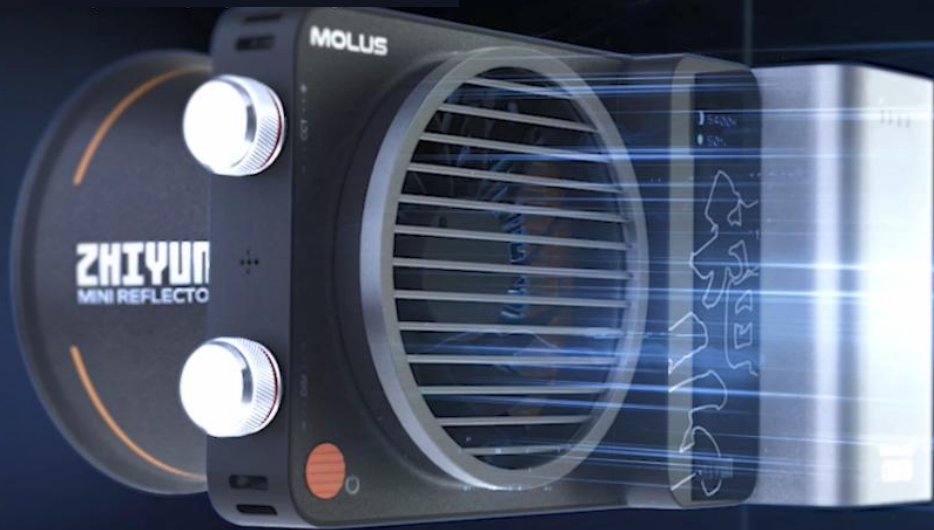

100W POWERFUL OUTPUT

X100 frees you from traditional heavy equipment with only 370g in a palm size and a stable 100W max output, letting you embrace full creativity with ease at anytime, anywhere.

ZHIYUN

INTELLIGENT COOLING SYSTEM

X100 adopts DynaVort Cooling System™ that consists of gyroscope modeling heat sinks and FOC fans to prevent overheating.

The DynaVort technology is based on the fluid dynamics and attitude-control algorithm, significantly raising the cooling efficiency through intelligent control over airflow emissions.

ZHIYUN

PROFESSIONAL OUTDOOR LIGHTING

X100 is supported by ZHIYUN self-developed discharge technology that enables a 100% power output when shooting on location.

ZHIYUN

3 WAYS TO POWER YOU UP

GRIP BATTERY

PD FAST CHARGE

DC CHARGE

The MOLUS X100 utilizes a patent power supply technology to support its 100W mighty output. Being able to choose among the grip battery, DC adapter, and 100W PD fast charge, you'll limit the downtime on your shoot.

*It is recommended to use the DC adapter with input over 100W. The X100 grip battery weighs 440g and is not included in the standard package. The max input power of the battery is 30W. X100 can work for 30min at 100W.

ZY MOUNT ECOSYSTEM

DIVERSE Light Shaping Solutions

A woman with dark hair, wearing a patterned shirt and a brown vest, is sitting on a wooden ledge next to a window with wooden blinds. A large studio light with a black and yellow striped umbrella is mounted on a stand next to her. The background is a warm, wooden interior with a brown sofa.

The ZY mount is designed for dedicated modifiers that also compatible with ones of Bowens mount, satisfying your needs for more fine-tuned effects.

The Zhiyun logo is a red square with the word 'ZHIYUN' in white, uppercase letters.

SIMPLIFY AND RESHAPRE PRO LIGHTING

A man in a black t-shirt is holding a large, black, umbrella-shaped light diffuser. A Zhiyun MOLUS X100 light is attached to the center of the diffuser. The man is holding the diffuser with both hands, and the light is pointed towards the woman in the previous image. The background shows a green window with shutters.

MOLUS X100 challenges the size stereotype of cinematic lighting, bringing you the most lightweight COB light that is powerful and versatile enough to perform incredibly well in multiple professional scenarios such as portrait and still-life photography, TVC, and interviews.

CUT OUT FOR LIVE STREAMS

X100 answers the calling of short videos and live streams with the clearer footage quality and the more efficient lighting setup than ever, combining with the ZY mount ecosystem to give your work a solid level-up.

The Live mode allows you to turn on multiple lights at once, meeting the demand of fast lighting setup for one man crew.

ZHIYUN

THANK YOU
