

JOBY SeaPal Waterproof Case

Waterproof Phone Case for Action Content Creation
JB01948-BWW

JOBY®
Sell Sheet

The ultimate Smartphone waterproof, shockproof and dustproof housing, SeaPal is the tool you need to get in the water and give your content the WOW factor you've always wanted. Never miss any opportunities leaving your phone behind on the boat, shore or by the pool worried about water damage, let SeaPal transform the way you think about capturing the underwater moments you've always dreamed of using the camera you already know and love.

JOBY has partnered with AquaTech, who has been making water housings for the world's best ocean photographers for over 20 years. We took all of that knowledge and experience and created SeaPal. Whether you're surfing, snorkeling, fishing, freediving, kayaking or just taking photos of the kids in the backyard pool, the SeaPal protects your phone and lets you focus on getting the perfect shot.

Take your content creation to new levels with SeaPal and your phone. SeaPal supports all the latest features of the iPhone and Samsung Galaxy S series phones. No 3rd party apps required. Just use your phone, your way.
